ABOUT
FLAVYA GAETA

Flavya is an independent DJ, music producer and ethnomusicologist with Brazilian-American nationality. She is now connecting the alternative music scenes of New York City (USA) and São Paulo (BR) more than ever, helped by her family roots in both countries. In 2009, she started her journey as a DJ.

Flavya's eclectic style is based on grooves of music from traditional cultures around the world, with a special focus on Brazilian and Latin music: born in Europe, raised in both the United States and Brazil, Flavya is no stranger to cultural experiences, being exposed to many different music communities.
